## SWINE POPULATION DECLINES BY 4.4 PERCENT

The swine population in Eastern Visayas as of 01 January 2021 stood at 254,706 heads. This figure was lower by 4.4 percent compared with the 266,320 heads as of 01 January 2020. All provinces contributed to the decrease in the region's swine population except for Samar, which posted an increase of 1.7 percent.

Meanwhile, Leyte recorded the highest swine population at 122,472 heads, which accounted for 48.1 percent of the total swine population in the region. Northern Samar ranked second with 46,876 heads accounting for 18.4 percent of the region's total swine inventory. Eastern Samar, on the contrary, registered the lowest inventory of swine with 3.8 percent share or 9,733 heads.

By farm type, swine population raised in backyard farms posted a decrease by 4.5 percent, from 250,954 heads as of 01 January 2020 to 239,725 heads as of 01 January 2021 (Table 2). Leyte's swine population raised in backyard farms exhibited the biggest decrease of 7.5 percent, from 129,050 heads as of 01 January 2020 to 119,362 heads as of 01 January 2021. Eastern Samar, Southern Leyte and Biliran also decreased by 5.0 percent, 4.3 percent, and 1.3 percent, respectively. On the contrary, Samar and Northern Samar's swine population raised in backyard farms slightly increased by 0.2 percent from 33,200 heads on 01 January 2020 to 33,268 heads on 01 January 2021 and 41,931 heads on 01 January 2020 to 42,033 heads on 01 January 2021, respectively.

Swine population raised in commercial farms went down by 2.5 percent from 15,366 heads as of 01 January 2020 to 14,981 heads as of 01 January 2021 (Table 2). Among the provinces, Northern Samar registered the biggest decrease in number of swine raised in commercial farms by 15.8 percent from 5,750 heads on 01 January 2020 to 4,843 heads on 01 January 2021.

Majority, or 94.1 percent of the swine population in the region as of 01 January 2021 were raised in backyard farms while only 5.9 percent of the swine were reared in commercial farms.
