SWINE POPULATION IN EV DECLINES BY 6.5%

The swine population in Eastern Visayas as of 1 October 2019 stood at 302,044 heads. This figure was lower by 6.5 percent compared with the 323,170 heads as of 1 October 2018.

All provinces contributed to the decrease in the region's swine population except for Biliran, which posted an increase by 12.0 percent.

Among provinces, Leyte recorded the highest swine population at 155,071 heads, which accounted for 51.3 percent of the total swine population in the region. Northern Samar ranked second with 46,076 heads accounting for 15.3 percent of the region's total swine inventory. Eastern Samar, meanwhile, registered the lowest inventory of swine with 4.3 percent share or 13,121 heads.

By farm type, swine population raised in commercial farms posted the highest increase by 16.0 percent, from 12,195 heads as of 1 October 2018 to 14,141 heads as of 1 October 2019. Biliran's commercial swine population more than doubled, from 535 heads as of 1 October 2018 to 1,130 heads as of 1 October 2019. Northern Samar and Southern Leyte also increased by 39.4 percent and 10.9 percent, respectively. Eastern Samar's commercial swine population downsized by 7.1 percent from 506 heads as of 1 October 2018 to 470 heads as of 1 October 2019.

On the contrary, swine population raised in backyard farms went down by 7.4 percent, from 310,975 heads as of 1 October 2018 to 287,903 heads as of 1 October 2019. All provinces registered decreases except Biliran, which posted an increase of 7.4 percent. Eastern Samar recorded the highest decrease by 34.8 percent, from 19,400 heads as of 1 October 2018 to 12,651 heads as of 1 October 2019.

Majority (95.3 percent) of the swine population were raised in backyard farms while only 4.7 percent of the swine were reared in commercial farms.
