02 July 2025 – San Julian, Eastern Samar – in celebration of the 162nd Founding Anniversary of the Municipality of San Julian, the National Identification (NID) Team proudly participated in the Job and Service Fair and Business Expo.

The participation of the National ID Team underscores the government's continued commitment to inclusivity and accessibility of public services. During the event, the team provided on-site registration for the National Identification System (NID), aiming to serve job seekers, local residents, and individuals who have not yet registered in the national ID system.

This initiative is in line with the goals of the NID to create a unified and streamlined identification platform for all Filipinos, enabling easier access to employment, financial services, social protection programs, and other government services.

This activity forms part of the continuing efforts to make the national ID system more accessible to the public, especially during local events where services can be brought closer to the people. It aims to ensure that all

eligible individuals are given the opportunity to register and benefit from the advantages of having a national ID.

The Job and Service Fair, organized by the Local Government Unit of San Julian in partnership with various agencies and local businesses, provided employment opportunities, essential services, and entrepreneurial support for residents of Eastern Samar.

The National ID Team encourages all Filipinos, especially those from remote and underserved areas, to take advantage of similar registration drives. Possession of a national ID empowers individuals and enhances their access to public and private services.
