Inflation Rate (IR) by Major Commodity Group In Samar Province July and August 2021 (2012 = 100)

TECHNICAL NOTES:

- Consumer Price Index (CPI) An indicator of the changes in the average retail prices of a fixed basket of goods and services commonly purchased by an average Filipino household. It shows how much on the average, prices of goods and services have increased or decreased from a particular reference period known as base year.
- Inflation Rate (IR) refers to the annual rate of change or the year-on-year change of the CPI expressed in percent.
- Purchasing Power of Peso (PPP) shows how much peso in the base period is worth in the current period. It is computed as the reciprocal of the CPI for the period under review multiplied by 100.
